

“Resonant Field: Remote Sound Bath Immersions”

Core Intention

This new initiative is to invite individuals around the world into a co-resonant sound healing field by attuning remotely to live sound bath events through the frequency of 528Hz — known as the “Love Frequency” or DNA repair frequency — while simultaneously enhancing their experience with wearable phototherapy technology (LifeWave) to open and activate their third eye centre for Spiritual Vision and Truth-Consciousness.

Components of the Offering

1. Live Anchor Events

- Dates: Pre-scheduled sound bath sessions held by Colin Hillstrom. See schedule: <https://colinhillstrom.com/>
- Format: In-person + non-local participation
- Remote Invitation: People are invited to tune in from anywhere at the same time using Colin’s recording “Crystal Sound Journeys” in 528Hz

2. Remote Participation Instruction

- Note: You are not listening to the live event; instead you are listening to a professional recording by Colin Hillstrom at the same time as the event
- Digital Recording link to 528Hz file:

- You can listen to the recording for FREE on the above Bandcamp site or you can purchase the download and listen in your own library, creating different mixes of the tracks as you like
- Optional: Enhance your experience by applying wearable phototherapy to open your third eye (6th chakra). Recommended: ALAVIDA by Lifewave. Place the patch on your third eye centre during the sound journey, leave on during the night for up to 12 hours. Link to purchase:
